Notification dated 29th June 1946.

D2. 1789—45-6. In view of the famine conditions created by the failure of rains last year, arrangements were made by this department with the oil mill-owners for the reservation of groundnuts in the State up to a total maximum of 14,800 tons as an emergency reserve of food. Under the arrangement the oil mill-owners have held in reserve a considerable portion of the quantity referred to above on behalf of Government.

2. Conditions have now changed and it is felt that the reservation of large quantities of groundnuts for food purposes is no longer necessary. The next crop of groundnut is expected to come in, in October 1946. Under a reciprocal arrangement with the Madras Government, we are now getting groundnut seeds from the Madras Province. Added to this, we have been given a quota of 18,000 tons of groundnut seeds from the Madras Province under the Basic Plan of the Government of India and it is expected to be imported into Mysore in the near future. It is therefore hoped that there would be no difficulty for groundnut seeds in the State till 1st January 1947. Stocks would be coming in continuously and they could be obtained locally as and when required if there arises any necessity to do so.

3. In view of the foregoing reasons, the reservation has been cancelled and the restrictions against crushing have been completely removed. The oil mill-owners can now freely decorticate and crush their stocks.
